Southwest Health District Delays Opening on April 11, 2024, Due to Severe Weather

Albany, GA— The Southwest Health District announces a delayed opening for all its locations on April 11, 2024, due to severe weather conditions in the area. To ensure the safety of our staff and patients, all Southwest Health District facilities will open at 10:00 AM local time.

This decision has been made in accordance with the latest weather forecasts, which indicate the possibility of hazardous conditions impacting travel and safety in the early hours of the morning.

By delaying the opening until 10:00 AM, we aim to provide adequate time for roads to be cleared and conditions to improve before staff and patients begin their commute to our facilities.

We apologize for any inconvenience this delay may cause and appreciate your understanding and cooperation during this time. Our priority is the safety and well-being of our community, and we encourage everyone to stay informed about weather updates, exercise caution while traveling, and prioritize personal safety.
